7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Best practice 1:

Title: Institute – Industry Interaction

Institute - Industry Interaction refers to the collaboration between educational institutions focused on technical education and industries relevant to their fields of study. This interaction aims to bridge the gap between academic knowledge and practical industry requirements. Key aspects of this interaction include internships, industry-sponsored projects, guest lectures from industry experts, and collaborative research initiatives.

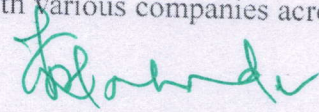

Internships provide students with hands-on experience, allowing them to apply theoretical knowledge in real-world settings. Industry-sponsored projects offer opportunities for students to work on current industry challenges, fostering innovation and problem-solving skills. Guest lectures by industry professionals help students stay updated on the latest trends, technologies, and practices, ensuring their education remains relevant and forward-looking.

Collaborative research initiatives between technical institutes and industries lead to advancements in technology and processes, benefiting both academia and industry. These partnerships can also facilitate the development of new curricula that align with industry needs, thus enhancing the employability of graduates.

Overall, effective industry interaction helps technical institutes produce skilled, industry-ready professionals, while industries benefit from fresh perspectives, cutting-edge research, and a pipeline of talented potential employees. This symbiotic relationship is crucial for driving technological innovation and maintaining a competitive edge in the global market.

Accordingly, CMS College of Engineering have signed MoUs with various companies across the country.

REPORT

Date: 22.03.23

Title : WIRELESS MOBILE PHONE CHARGING
Date(s) : 20.03.23
Resource Person : Mr. RAJASEKARANS
Total Participants : 80

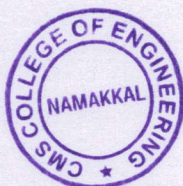

A Seminar on “WIRELESS MOBILE PHONE CHARGING” was organized by the department of Computer Science Engineering, Electronics and communication Engineering and Mechanical Engineering in CMS College of Engineering campus on 20.03.23 at 10AM-1PM. The aim of the seminar is to understand the basics of wireless mobile charging.

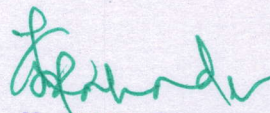

Mr. G. GOPAL, Assistant Professor & HOD, Department of Mechanical Engineering, delivered the welcome address and he extended his warm welcome to the resource person and participants.

The presidential address was given by Principal, CMS College of Engineering. He explained about the importance of wireless mobile phone charging.

Mr. RAJASEKARANS explained about wireless mobile charging and then he explained the applications of wireless mobile phone.

At the end of session, doubts of the students also cleared. Finally the vote of thanks was proposed by Mr. D. ASHOKKUMAR, AP/Mechanical. Certificates also provided to the participants.

OPTICAL SATELLITE COMMUNICATION

02/09/2022

ROADMAP IT SOLUTION PRIVATE LIMITED
The Inter-Satellite Omnidirectional Optical Communicator Project (ISOC) initiated in Spring of 2019 at California State University, Northridge. This project is a subdivision of the original CSUNSat1 Satellite Project (2013-2017). The focus of this division is to design a system that will be able to transmit a signal at a 200 km distance in Low Earth Orbit (LEO). Jet Propulsion Laboratory (JPL) has imparted a list of guidelines for this project: One Gigabit per second over a distance of 200 km, a BER of 10^{-9} with a carrier wavelength of 850 nm, and the angle of arrival must be determined within an error margin of one arcsecond, 90% of the time.

REPORT

Date: 04.03.2020

Title : WIRELESS NETWORK ED DIGITAL DEVICSES
Date(s) : 02.03.2020
Resource Person : Mr.Kaviyaran S
Total Participants : 40

A workshop on “WIRELESS NETWORKED DIGITAL DEVICES” was organized by Department of Computer Science in CMS College of Engineering campus on 02.03.2020 at 10AM-1PM. The aim of the seminar is to understand the basics of Wireless Network.

Mr.S.Dhinesh, Assistant Professor & HOD, Department of CSE, delivered the welcome address and he extended his warm welcome to the resource person and participants.

The presidential address was given by Principal, CMS College of Engineering. Further he explained the importance Wireless Network in day to day life.

Mr. Kaviyaran S, explained about Wireless Networked Digital Devices and its applications. At the end of session, doubts of the students also cleared. Finally the vote of thanks was proposed by Mrs.M.Bhuvaneshwari, Assistant Professor/CSE. Certificates also provided to the participants.

RESOURCE PERSON DETAILS

Title : OBJECT-ORIENTED PROGRAMMING USING PYTHON
Date(s) : 25.02.19
Resource Person : Ms.S.Shalini, HR

I am S. Shalini, an accomplished HR professional holding an MBA in HRM with nine years of post-qualification expertise. Currently, I proudly serve as the HR Manager at Avaikalam Private Limited. My specialization lies in HR recruitment and generalist activities, where I meticulously handle end-to-end recruitment processes, job descriptions, and screening processes. In addition to recruitment, I manage training programs, payroll Processing, statutory, compliance and performance management

Since May 2023, I have been the HR Manager of Operations at Avaikalam Private Limited, showcasing my proficiency in utilizing job portals such as Naukri and LinkedIn, as well as MS Office applications. Described as goal-oriented with excellent communication skills, I am known for my adaptability and positive work attitude. My academic background includes an MBA in HRM from Annamalai University and a B.B.A from Cauvery College for Women.
